FRESH

CHILWORTH MANOR

Location: Guildford

Sector: Vineyard Showroom | Winery Tasting Venue

Client: Chilworth manor

Scope: 100sqm

Timeline: 7 days

Summary: This project involved grinding the existing surface, chasing and resin-reinforcing cracks within the screed, and completing the space with a beige finish suited to the ambiance of guided tours and tasting sessions.

BSTN - BRIXTON

Location: Brixton

Sector: Commercial

Client: BSTN

Scope: 50sqm ceiling, floors and walls

Timeline: 4 weeks

Summary: This project involved grinding back the existing floors, applying levelling compounds, and repairing mortar across mixed substrates to create a smooth, unified base. Our team delivered a full microcement package—floors, walls and ceiling—an uncommon scope that added depth, continuity and a striking, modern finish throughout the 50sqm space.

CIRCUS STREET

Location: Brighton

Sector: Commercial Work Spaces

Client: Circus Street

Scope: Concrete power trowel effect in the unit

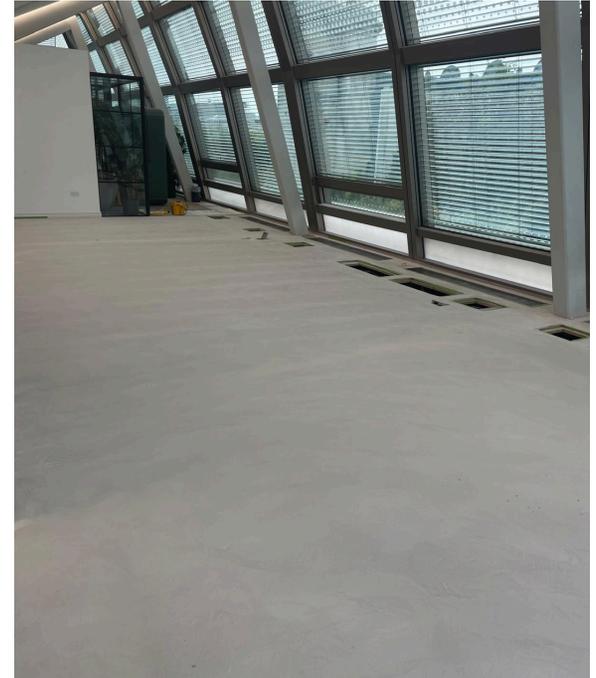

Timeline: 2 weeks

Summary: This unit received a concrete power-trowel effect finish, delivered within a tight residential thoroughfare that required constant attention to cleanliness and access. As part of a wider programme of Architopping works across multiple neighbouring units, our team coordinated simultaneous operations to maintain efficiency and keep overall costs down for the client.

BURLINGTON PLACE

Location: London

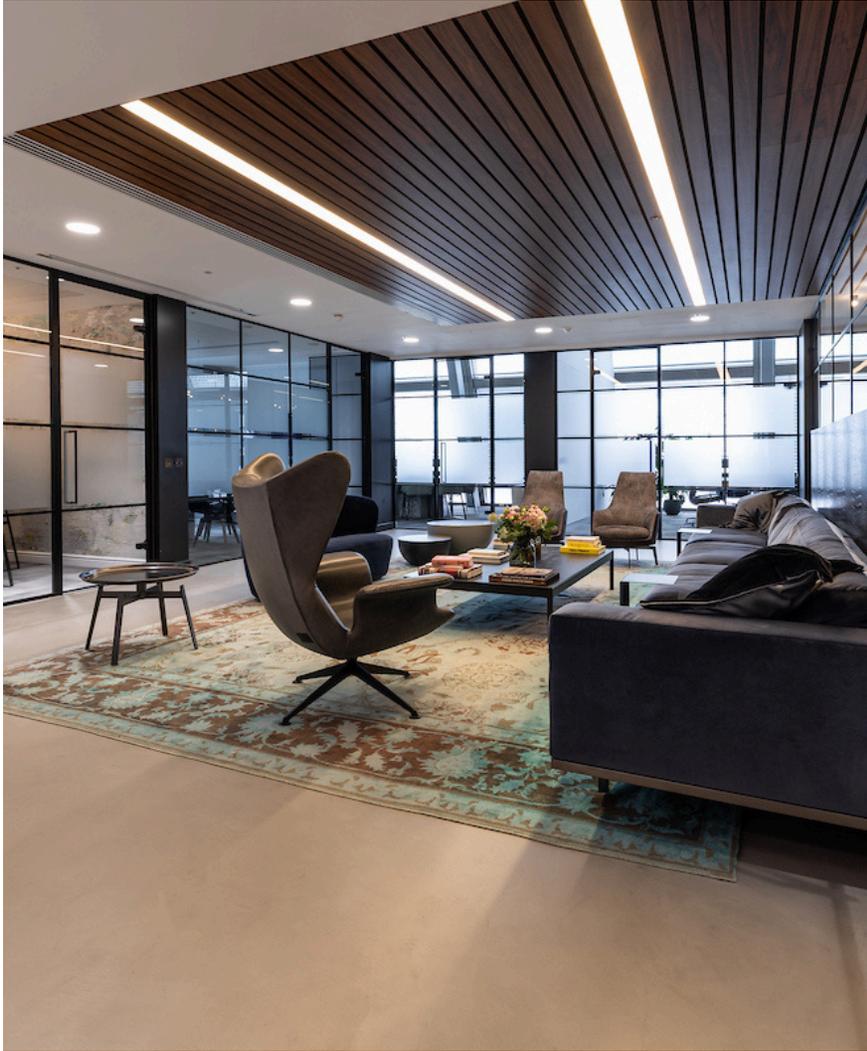

Sector: Rooftop Work Space (Penthouse)

Client: Burlington Place

Scope: Repair the existing finish and apply a new concrete look finish

Timeline: 8 days

Summary: Time was the biggest challenge on this project, requiring our team to work day and night to stay on programme. We brought in additional drying fans to accelerate curing so two layers could be applied each day instead of waiting overnight. Mid-project noise restrictions added further pressure, but our team remained committed and delivered the full scope within the client's required timeframe.

KWAY OFFICIAL SHOP

Location: Kings Road, Chelsea

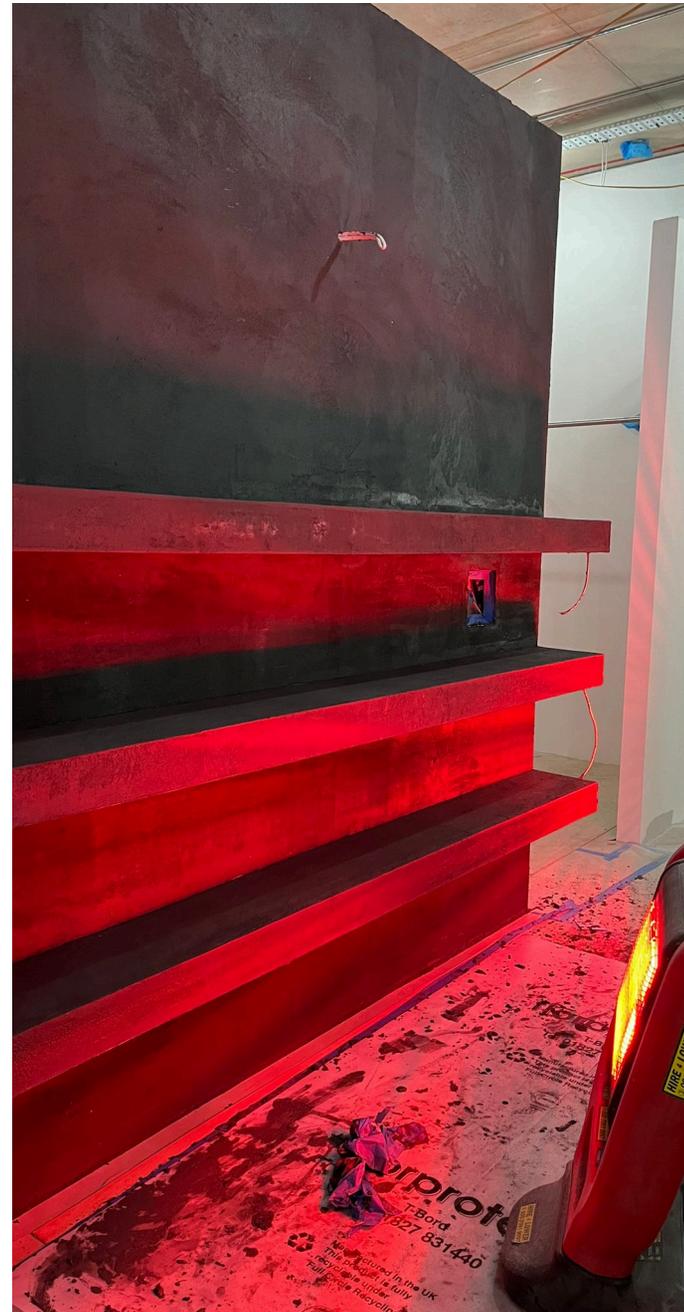

Sector: Fashion Outlet

Client: KWAY Official

Scope: Floors and walls

Timeline: 8 days

Summary: Significant undulations in the substrate required us to lace out and correct key areas before installation, ensuring a smoother base and a cleaner overall aesthetic. With a tight deadline and shopfitters scheduled to follow immediately after, our team worked efficiently to deliver a high-quality finish that kept the wider programme on track.

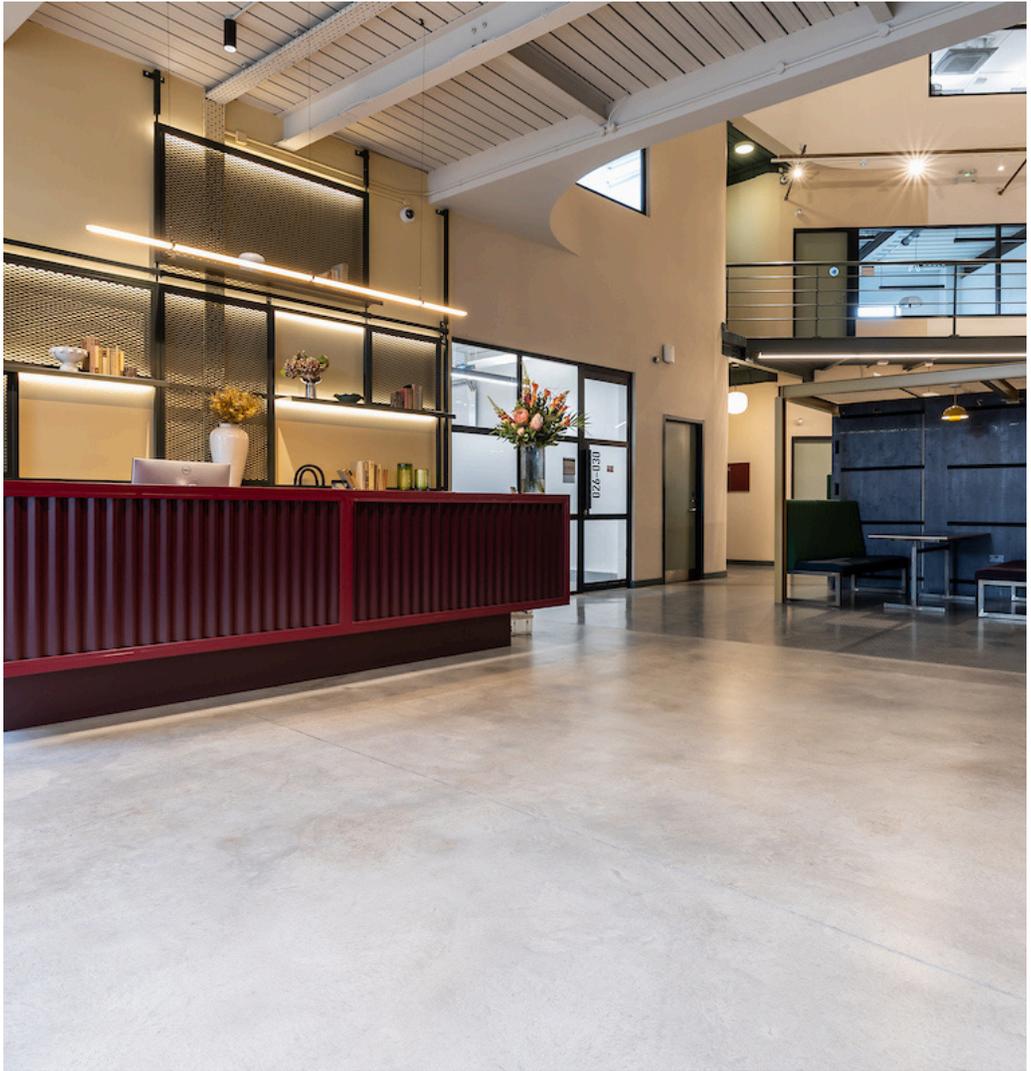

WESTBOURNE STUDIOS

Location: Nottinghill
Sector: Office Workspace
Client: Westbourne Studios
Scope: 40sqm
Timeline: 5 days

Summary: With only five days to refurbish the reception entrance, this project required precise coordination and fast turnaround. Our team delivered a refreshed, modern finish that complements the aesthetic of the trendy Westbourne Studios workspace, all within the strict timeframe.

Let us bring your vision to life.
